

# Fixed Term Treasury Deposits

This is a Barclays Business Bank product which offers account holders a choice of fixed term deposits over an agreed period combined with guaranteed rates of interest available in GBP and USD.

## Key features and benefits

- Guaranteed rate of interest
- Choice of fixed term – up to and including 12 months
- Interest paid at maturity
- Rate fixed for the duration of the deposit
- Rate of return linked to an external market rate
- Available in GBP, and USD
- Reduced exchange rate risk and administration.

## Choice of currencies, terms and amounts

Available in GBP and USD, Barclays Treasury Deposits offer fixed returns over different periods ranging from 1 month to 12 months, to suit your business requirements. To place a Treasury Deposit you must hold a Barclays account with us in the same currency.

The minimum balance varies according to the term. This can be as low as £100,000 (or the currency equivalent) if you invest for one month or more. The maximum deposit balance is £24,999,999 (or the currency equivalent), more details on minimum balances are available upon request.

## Fixed returns

The interest rates on these deposits are based on an external market rate, and are monitored regularly. As the rate is fixed for the term of the deposit, your return will not change with movements in the market interest rates.

Interest will be paid at maturity. On the day of maturity, the funds are repaid to the Barclays account nominated by you. Withdrawals cannot be made during the term of the deposit.

## Deposits to suit your cash flow requirements

Whether your priority is a fixed return or simply protection from exchange rate risk, we can tailor a package to meet your individual business needs.

## Next steps

Upon placement of a Treasury Deposit, we will provide you with a letter confirming your deposit.

Please contact us if you wish to discuss your requirements in more detail.
